HYPERCLEAN

MADE IN ITALY

HYPERCLEAN DIAMOND CLEANING PAD

HYPERCLEAN pads allow the floor to be washed in an efficient, ecological and cost effective way. HYPERCLEAN is available in all sizes for all single discs and scrubbing machines.

Only need to add water!

For ordinary maintenance of marble, vinyl, linoleum, terrazzo and natural stone floors. **Used regularly they keep your floor incredibly shiny and clean.**

HYPERCLEAN is the system to clean and maintain floors mechanically, using only water and the Hyperclean diamond pad. We know the importance of having always a clean and well maintained floor, but this is not always an easy and inexpensive operation. Hyperclean pads allow the floor to be washed efficiently, economically and in full respect of the environment.

PLUS

- Reduces the costs.
- Fast and effective procedure.
- Suitable for all kind of machines
- Improve results.
- Increases customer satisfaction.
- The floor is always clean and shiny.
- Replaces standard pads and chemicals.
- Respect the environment.
- Needs only water.
- Reduces bacterial load on floors.
