Cleaners

S-STEEL CLEANER

Water-based, pH-neutral cleaner specifically for day-to-day cleaning of steel surfaces

S-STEEL CLEANER is a water-based product, specifically developed for cleaning and maintenance of almost all surfaces in steel. Its formula is effective on greasy, old and built up dirt, without damaging treated surfaces. It does not leave surface residues and needs no rinsing.

S-STEEL CLEANER is especially recommended for daily cleaning of cook tops, taps, stainless steel, worktops and any other steel surface. It is quick and easy to use, thanks to its practical spray dispenser.

CHARACTERISTICS AND BENEFITS

- Ready to use
- Top-level cleaning action
- Excellent de-greasing power
- Quick and easy application
- It is gentle on surfaces but effective against dirt.

USES

This product **can be used** on both indoor and outdoor surfaces. **Suitable** for use on all steel surfaces

COVERAGE

According to use

APPLICATION EQUIPMENT

Rag, sponge, micro fibre cloth

APPLICATION STEPS

Before applying the product to the whole surface, always test a small, unexposed area or unused piece to check its suitability for use.

1. Apply the product directly to the surface being cleaned, using the spray.

2. Distribute the product evenly by wiping it over the surface with a sponge, cloth or other chosen means. Rub over the surface to help the cleaning action and until all dirt has been wiped away and the product dried.

INSTRUCTIONS AND GUIDELINES

Never leave undiluted product in contact with surfaces for extended periods of time.

- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SO 900

Cleaners

S-STEEL CLEANER - Water-based, pH-neutral cleaner specifically for day-to-day cleaning of steel surfaces
