## Honing and Polishing

# HONING CREAM

**Water-based, abrasive cream for the treatment of chemical Etching and back marks on marble, natural stones, natural and matt Ceramic tiles**

**HONING CREAM** is a water-based cream used on all surfaces in natural stone, such as marble and granite, and ceramic tiles with a natural or matt finish. Thanks to its micro-abrasive action, the product is suitable to restore and recover back tile marks and imperfections caused by wear, foot traffic, and the corrosive action of acid substances.

**HONING CREAM** can be used on polished marble before the application of **POLISHING CREAM**, in this case, it makes it possible to restore the deepest and most difficult acid-etching stains.

### BENEFITS

- ✓ Micro-abrasive action
- ✓ Ready to use
- ✓ Matt finish
- ✓ Great for the removal of acid-etching stains

### USES

**Suitable** for indoor and outdoor applications.  
**Suitable** for Marble-resin agglomerates, quartz-resin agglomerates, natural porcelain tiles, matt porcelain tiles, Limestone, Marble, Travertine.  
**Not suitable** for surfaces with a polished finish.

### COVERAGE

NA

### APPLICATION EQUIPMENT

White Pad, Single disk machine, Hand polisher

### APPLICATION STEPS

*Before applying the product it is necessary taking a preliminary test to evaluate the suitability of the product on an unexposed area or unused piece of material*

#### Surface Preparation

- Before proceeding with the cleaning, it is advisable to clean away any surface residues, such as dust, debris, and coarse dirt, using a broom or a vacuum cleaner.
- Wait for the surface to be treated to be completely dry.
- Any surfaces close by not to be treated with the product must be protected.
- Apply the product to surfaces with a temperature between +5 and +40°C

#### Application

- Shake the bottle well before use and pour a small amount of product onto the surface to be treated.
- Start to work the product in circular motions using the white pad, making sure to treat the whole surface evenly.
- The necessary time to achieve the desired results will vary according to the depth of the etching to be restored. While working with the product, keep checking the surface to see the result achieved. Continue to work with the product until the required result has been achieved. In case of particularly deep corrosions, it may be necessary to use a hand polisher with a white pad.
- After working the product, remove all residues and rinse with plenty of water.

## SHOWROOM LINE

**APPLICATION STEPS***Resume Surface Use*

After carefully removing any residues and rinsing the surface with water, the floor can be opened to foot traffic.

**COMPLEMENTARY MAINTENANCE PRODUCTS MANUTENZIONE**

After using **HONING CREAM** we recommend using the most suitable Faber cleaner, such as **NEUTRAL CLEANER** or **FLOOR CLEANER**, depending on the nature of the surface.

**INSTRUCTIONS AND GUIDELINES**

- Non applicare il prodotto su superfici lucide
- Don't apply the product on polished surfaces
- Do not apply the product on wet or heated surfaces
- Do not apply the product on acidified surfaces
- When applying to recently laid or grouted surfaces, wait for the adhesive or grout to cure completely.
- Do not use in combination with other chemicals if not specifically required
- Before applying the product it is necessary to take a preliminary test to evaluate its suitability

**EQUIPMENT CLEANING**

The equipment used can be cleaned with water

**PHYSICAL AND TECHNICAL DATA**

Formula	Cream
Color	Grey
Odor	NA
pH	7 ± 0,5
Specific gravity at 20°C	1750 ± 10 g/l

**STORAGE**

Keep the container tightly closed and store in a cool, dry place.

**SHELF LIFE**

24 months in the original, sealed packaging, stored in a cool, dry place.

**PACKAGING**

250 MI bottles - 12 bottles per box

**ACCIDENTAL SPILLS**

Soak up the product with an absorbent material (paper towels, sawdust, vermiculite, etc.) and dispose of it in the most suitable waste container.

**SAFETY**

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.
